

## PROJECT PROFILE

### PROJECT VISION

The hand-hewn appearance of our chiseled face masonry provides the massive base for this library.

The chiseled edge finish on each face harkens back to the last century when chiseled limestone units formed the base of countless municipal buildings.

### Chiseled Face CMU

Chiseled Face CMU provide an "old world" chiseled stone appearance, giving buildings unique textural drama.

Consider for use as quoin corners or building knee walls. They also make a great base detail for columns and piers.

### PROJECT

Ballston Community Library

### LOCATION

Burnt Hills, NY

### ARCHITECT

J.D. Smith Associates  
110 Lake Hill Road  
Burnt Hills, NY 12027
