CHISELED FACE MASONRY UNITS

For projects where a distinct “old world” chiseled stone look is desired, our Chiseled Face architectural CMU provides the perfect fit. Available in a wide range of colors, shapes & sizes, Chiseled Face units can add a great dimension to your project. Consider for use as quoin corners or building knee walls. They also make a great base detail for columns and piers.

- Available in all traditional CMU shapes & sizes
- Available in veneer or load-bearing units
- Meets ASTM C90 specifications
- Manufactured with integral water repellent
