

PROJECT PROFILE

PROJECT VISION

The designer for this project utilized rows of alternating colors in a half unit (8"x 8"). This provided an interesting detail that provided visual impact to the building that could not be obtained using traditional 8"x16" face units.

Split Face CMU

Split Face is a popular unit masonry finish because it offers a uniquely textured face with no two units appearing exactly alike. Providing depth to building design, Split Face is a cost-effective design option for any project.
