

## PROJECT PROFILE

### PROJECT VISION

This church featured three different colors of Split Face CMU, along with a course of gray blended split face brick units in soldier coursing. The use of multiple colors to accent special details in this building provided a more attractive overall appearance.

### Split Face CMU

Split Face is a popular unit masonry finish because it offers a uniquely textured face with no two units appearing exactly alike. Providing depth to building design, Split Face is a cost-effective design option for any project.
