# CONSTRUCTION PRODUCTS GUIDE

York Building Products distributes a wide variety of supplies related to the construction industry. With five locations in central PA, each location provides a range of products focusing primarily on the masonry, concrete, excavation and landscaping trades.

Our expert, knowledgeable sales staff meets the daily needs of contractors and homeowners alike. From aggregates to

tools, safety supplies to metal products, and construction materials to brick, block, & stone, each store is stocked for immediate delivery. Special orders can be easily processed for hard-to-find items, and product consultation is part of the added-value that we provide to each customer.

## Product Categories

The products listed on the back, provide a sampling of what we sell through our stores. Due to varying market needs, product selection varies by store location. Please contact your preferred store location first to confirm product availability. If what you need is not in in-stock, we may be able to transfer it from another store or special order for you.

828 East Earl Road, New Holland, PA 17557
