

Titan Series CMU are designed for projects where a larger-scale masonry unit is needed. Titan Series® units are also useful for columns and piers, and providing a stout accent detail wherever needed.

Titan Series® units are non load-bearing and are available in Gemstone®, Gemstone Plus®, and Rustic Face finishes. Select units can be manufactured with chamfers or scores.

Titan Series® units contain integral water repellent for moisture and efflorescence control.

Production capabilities include the following sizes and shapes:

- 4x8x24, 4x12x24, 4x16x24, 4x12x12 and 4x16x16 solid units.
