ABOUT US

York Building Products has been supplying a large variety of industries for over a half century with aggregates extracted from our mining operations throughout PA and MD.

STONE:

Our stone quarry operations manufacture limestone and granite products and operate year-round. These quality aggregates are used in numerous applications such as ready-mix concrete, asphalt production, precast operations, commercial construction, road construction, residential construction as well as agricultural products.

SAND & GRAVEL:

Our sand & gravel plants produce a wide range of products to serve varying industries throughout the mid-Atlantic; such as ready-mix concrete, construction, manufacturing, stormwater management, landscaping and municipal transportation authorities.

We rigorously test our products to ensure your confidence of meeting industry specifications, as well as your project's strictest requirements.

Please visit www.yorkbuilding.com to learn more about all of our products.

STONE PRODUCTS

AASHTO #1

Also referred to as PA #4 ballast. This aggregate is commonly used for road bases, construction entrances and seepage pits.

(BQ) (LQ) (S)

AASHTO #7

This aggregate is typically used in asphalt mixes.

(LQ) (PQ) (RQ)

AASHTO #3

Used for construction entrances, septic systems, and underneath porous pavement applications.

(LQ) (PQ) (RQ) (S)

AASHTO #8

Also referred to as 1B or 1/2". This aggregate is commonly used in concrete and asphalt mixes, as a base for poured walls, and for pipe trench backfill.

(BQ) (LQ) (PQ) (RQ) (S)

AASHTO #467

#467 is a blend of crushed aggregates with a nominal top size of 1 1/2". Primarily specified for use in industrial slabs where less shrinkage is desired.

(LQ) (RQ)

1/4" Rice

This aggregate is commonly used in asphalt mixes.

(RQ) (S)

AASHTO #57

Also referred to as PA 2B. This aggregate is commonly used in asphalt mixes, ready-mix concrete and for stone driveways.

(BQ) (LQ) (PQ) (RQ) (S)

Anti-Skid

This aggregate is used for roadways during inclement weather.

(RQ) (S)

AASHTO #67

Also referred to as 3/4" stone. Commonly used in ready-mix concrete as well as drainage applications--such as retaining wall backfill.

(LQ) (PQ)

Nature Trail Pathway Mix

A stone/clay blend that provides a stable surface on walkways, bike paths and rail trails. Exceeds ideal plasticity index.

(LQ)

STONE PRODUCTS

2A Modified

Also referred to as PA 2A. A compactable aggregate used as a base for underneath asphalt and concrete applications.

(BQ) (LQ) (RQ) (S)

AASHTO #10 Screenings

Also referred to as stone dust. Commonly used in the manufacturing of concrete masonry products, and for backfill in conduit trenches.

(BQ) (LQ) (PQ) (RQ) (S)

3A Modified

A highly compactable material used in road bases. Aggregate is very similar to 2A, but it contains a larger size aggregate in the mix.

(BQ) (LQ) (RQ) (S)

Manufactured Concrete Sand

A limestone sand that can be used in the production of concrete.

(LQ) (RQ)

CR6

A compactable aggregate used as a base for asphalt and concrete applications. This material is used in MD, typically for new roadway bases.

(PQ)

Manufactured Sand

A granite sand that can be used in the production of concrete and asphalt.

(PQ)

GAB

A compactable aggregate used as a base for under asphalt and concrete applications. This material is used in MD, typically for new roadway bases.

(PQ)

Blacktop Sand

A manufactured sand used specifically for the production of asphalt.

(LQ) (RQ)

GABC

A compactable aggregate used as a base for under asphalt and concrete applications. This material is used in DE, typically for new roadway bases.

(PQ)

DEP Sand

This aggregate is commonly used for sand mound septic systems.

STONE PRODUCTS, CON'T

Imbricated Stone

Large, hand-picked boulders used in stream bank restoration.

DUE TO LIMITED PRODUCTION, CALL TO CHECK AVAILABILITY.

(LQ)

Rip-Rap

We offer various sizes of Rip-Rap ranging from R-3 up to R-8. (Our Shrewsbury facility only has R-4 size available.)

Belvedere Sand & Gravel Plant
Port Deposit, MD

SAND & GRAVEL PRODUCTS

2"-4" Gravel

These earth-toned, washed, 2" to 4" gravels are excellent for landscaping, drainage and ground stabilization.

(B) (C) (LQ) (S)

Rice Gravel

A gravel with a nominal size of 1/4". Used in manufacturing block and pavers. Also used for tank bedding, landscape ground cover, or garden paths.

(B) (C) (P)

1"-3" Gravel

Earth-toned, washed, 1-inch to 3-inch gravel. Commonly used for landscaping and drainage applications.

(B) (C) (P) (LQ) (S)

Clay

A heavy, dense clay used for lining ponds, and also for lining and capping landfills.

(B) (C) (P)

3/4" Coarse Gravel

This gravel is used as a decorative gravel because of its earthtone colors and uniform sizing.

(C) (S)

C-33 Concrete Sand

Meets ASTM C-33 and AASHTO M-6. Designed primarily for use as a fine aggregate in ready-mix and asphalt mixes. C-33 sand maintains ideal FM's.

(C) (E) (P) (LQ) (RQ) (S)

3/4" Gravel

Designed mainly for use as a coarse aggregate in ready-mix concrete. This gravel also serves as a drainage layer under slabs.

(B) (C) (E) (P) (LQ)

Mason Sand

Our popular masonry sand is prized for its smooth and consistent performance.

(B) (E) (P) (LQ) (S)

Pea Gravel

Consists of small, rounded stones used in concrete exposed surfaces. Also used for walkways, driveways and as a substrate in home aquariums.

(B) (C) (E) (P) (S)

Utility Sand

A very fine sand produced for use as a fill sand on utility projects as well as landfill cover, landfill construction and soil mix filler.
