Stonegate Contemporary®

The smooth, uniform face and finished edges of Stonegate Contemporary create a modern, sleek attractiveness. This 6-piece system has the flexibility of providing an ashlar appearance by mixing 3"- and 6"-high units, or using only 3" or 6"-high units on the entire wall for a more traditional, linear appearance.

Your choice of setback:

1/8" (near vertical)

1" (9 degrees)

Utilizing a patented pin connection method, Stonegate Contemporary is suitable for larger, structural projects, and also offers smaller freestanding wall options. See reverse for more details.

Stonegate units are manufactured in accordance with ASTM C 1372.

3" Large Unit

3" Medium Unit

3" Small Unit

3" Square Cap

6"Units

6" Large Unit

6" Medium Unit

6" Small Unit

Features DOM pins ensuring proper wall alignment.

IMPORTANT INSTALLATION CONSIDERATION:

Use the vertical batter option (middle pin hole position on block top) for small freestanding applications and short, geogrid-reinforced walls. On critical engineered retaining walls with slopes or surcharges above, use the rear pin hole position on block top to provide the necessary batter for added strength and durability.

Stonegate freestanding applications should *not* exceed 24" above grade.
