

Project Profile Series

PROJECT VISION

The use of Titan Series® units in the base of this facility provided a bold juxtaposition with the modular clay brick units above it.

Featuring our Rustic Face texture, the Titan Series units provided a soft detail to complement this popular sports venue.

Titan Series® CMU

For projects where a larger-scale masonry unit is needed, our Titan Series® veneer units are designed specifically to meet those needs.

Titan Series units are also useful for columns and piers, and for providing a stout accent detail.

PROJECT

Ripken Stadium

LOCATION

Aberdeen, MD
