

Project Profile Series

PROJECT VISION

Utilizing a range of different shapes and sizes of our oversized Titan Series CMU, the architect was able to deliver an ashlar appearance to this massive wing wall at the entrance to this school.

Additional units were used on several building envelopes on the campus.

Titan Series® CMU

For projects where a larger-scale masonry unit is needed, our Titan Series® veneer units are designed specifically to meet those needs.

Titan Series units are also useful for columns and piers, and for providing a stout accent detail.
