Featuring an open core design and the pin connection system that is trusted by engineers and contractors around the world, the Keystone Compac is lighter weight than other structural blocks and has a shortened tail design that makes it easier to handle.

Your choice of setback:
1/8” (near vertical)
1 1/4” (8 degrees)

Compac units are PennDOT Bulletin 15 and VDOT approved.

Compac units are manufactured in accordance with ASTM C 1372.
