By York Building Products

**PREMIUM STONE, SAND & GRAVEL  
FOR SPORTING SURFACES**

# Golf Course Products

York Building Products has a wide selection of specialty aggregates that are designed specifically for golf course managers' needs. We produce all of our materials directly in our own quarries and sand operations. This allows us to manage quality control from start to finish, ensuring trouble-free application at your facility.

### SERVICE

Our products can be delivered by tri-axle truck, tractor trailer or pneumatic trailer or flat bed. You may also choose to pick up your product.

We custom blend root zone mixes and bunker sands, and can provide specialty blending of your products with our sands.

### PACKAGING

We have designed our material packaging in various sizes to better suit your project and application. All of our products are available in bulk quantities, 3000 lb. super sacks, one ton sacks, or 50 lb. bags.

(50 pound bags are available 40 bags to a pallet.)

### OTHER PRODUCTS

Damp aglime, bio-soils, rain garden and planting soil mixes, anti-skid, Gravel-Lok™, cast stone units, retaining walls, and pavers.

*Note: Due to the limitations of color printing, please review actual product samples prior to specifying or purchasing.*

# Athletic Field Products

Play Ball! We can be your single source for all of your infield needs, whether it's for softball, municipal baseball, or professional fields.

We understand the importance of controlling ball bounce and the need for a fast-drying field after a rain. That's why we carefully blend our infield products to meet the strict requirements of our customers throughout the eastern USA. Compare our products and see why we're the "Player's Choice."
