

PROJECT PROFILE

PROJECT VISION

This project featured several different masonry finishes, including our Rustic Face, Split Face and some Gemstone® ground face, with Rustic Face encompassing the majority of the field units.

By mixing a variety of finishes, the project had smooth (Gemstone), semi-smooth (Rustic Face), and coarse (Split Face) textures throughout.

Rustic Face CMU

Rustic Face CMU features a textured face softened by shotblasting the surface of the unit.

This face treatment provides a weathered, rustic appearance to a building envelope.
